

Referring-a-Friend is as easy as 1,2,3

At FCA Scotland we have been delighted by the numbers of referrals we have received from our foster carers via our Refer-a-friend scheme, but we know some of you have found it harder than others to know people in our social circles who may be interested in fostering, which means some of you haven't been able to benefit as yet.

With this in mind, we've put together a range of material that you can share on your social media channels such as Facebook, Instagram, WhatsApp or Twitter. These can be shared on your own personal pages - or to any groups to which you belong - school WhatsApp groups for example or local town Facebook pages. We are sure you'll have your own groups and ideas of where you can post.

Once you've shared, reply to any comments made and send someone a personal message to request their full name, e-mail address and phone number to obtain the details you need to complete the www.fcascotland.co.uk/refer-a-friend form.

Remember, you'll receive **£1,500** for each family we approve and a further **£1,500** after that family has completed one full year of fostering and there is no limit to how many people you can refer so you can post as little or as often as you like.

Refer a FRIEND

How to share

Download the image you would like to use on to your device and share to your chosen social media platform. Copy the text you'd like to use in the post and paste. All you need to do now is post.

Step 1

Step 2

Step 3

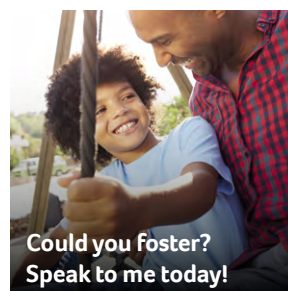

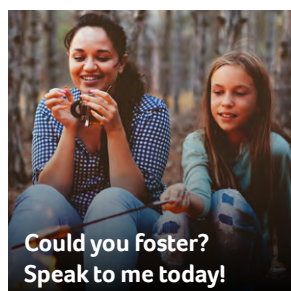

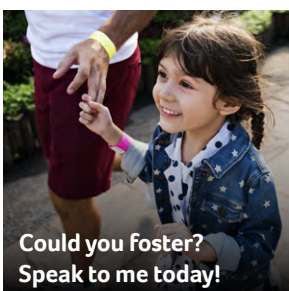

Reply to any comments made and send someone a personal message to request their full name, e-mail address and phone number.

Complete the Refer-a-friend form here:
